ABOUT NUHS FUND

NUHS Fund is a Company Limited by Guarantee (CLG) and a registered charity with IPC status.

The charity was set up to promote medical research and development as well as provide health related services for the benefit of the Singapore Community.

Your compassion to support patients, especially those assessed to be in financial need, will make a difference in their journey back to better health.

© This report is intended for donors. Please contact the NUHS Development Office at (+65) 6772 5552 or nuhsfund@nuhs.edu.sg should you wish to share this report with others.

OVER THE PAST 12 MONTHS,

1350

beneficiaries and their families received support

2,066

applications were approved

Beneficiaries received support of

\$3.6 million

You made this possible.

BY CITIZENSHIP

Based on application data

Majority of our applicants are Singaporeans.

84%

Singaporeans

10%

Permanent Residents

6%

Resident Foreigners

Support is given to Singaporeans and Permanent Residents for costs not supported by other assistance schemes.

The fund also supports Resident Foreigners who have spent a "reasonable" time in Singapore and are part of our Singapore community.

BY PER CAPITA INCOME (PCI)

Based on application data

82% of applications come from the **lowest 20% PCI** of our community, measured by Department of Statistics (Household Income), 2021.

BY AGE GROUP

Based on dollar amount supported

Chronic diseases are prevalent among beneficiaries aged 45 and above.

Your Gift Matters!

At 48 years old, Lisa* was diagnosed with endometrial[^] cancer in 2020. To manage her condition, she underwent surgery at the National University Cancer Institute, Singapore (NCIS) which involved the removal of her uterus, cervix, ovaries and fallopian tubes as well as radiotherapy sessions. Since then, she requires long-term follow-up and surveillance to ensure that her condition does not relapse.

Unfortunately, she experienced a relapse in 2021 and had to undergo tests and further surgery. Lisa is the sole breadwinner of her family. She has to provide full financial support to her school-going son and elderly parents on her single income as an admin worker and is unable to afford the costs of the follow-up tests.

Thanks to the support of donors to the NUHS Fund, Lisa is able to continue receiving the necessary surveillance without financial worries.

"Together, we can turn hope into healing. Your support to the NUHS Fund helps provide life-saving treatments and support for those fighting cancer. Every gift makes a difference - because no one fights alone." - Lisa

*Name has been changed.

[^] Endometrial cancer (also referred to as uterine cancer) is the most common gynaecological cancer in Singapore women with rising incidence, and occurs in the uterus.

Your Gift Matters!

Mikail is 18 years old and suffers from multiple conditions, including spastic- dystonic quadriplegia cerebral palsy (a lifelong severe congenital condition that is characterised by paralysis of both arms and both legs, with muscle stiffness), failure to thrive, swallowing dysfunction and hip dislocation. To manage his growth needs, he requires long term fortified milk formulas.

His father is the main breadwinner of the family but earns a limited income as a freelance barber. Due to his medical condition, Mikail is wheel-chair bound and dependent on his mother for care, and she is only able to work as a part-time mail sorter while juggling his care.

Your generous support has eased the financial strain on Mikail's family and enabled him to receive the necessary milk feeds to increase his weight and meet the optimal weight gain required.
